
Stimulsoft Reports.Ultimate 2017.1.10

Ultimate 2016.3.1 Retail / .NET 2017.1.10 Full. I have applied the patch, but I do not see a way for the report to export to PDF. If I try to open the report through a web browser, I do see the report: A: From your comments, it looks like you are looking for the way to export to PDF from a report. This is not supported out of the box for the Reporting Services versions you mention. See attached screenshot: It is supported in the 9.0 version of Reporting Services. You can upgrade your Reporting Services to 9.0 from the Report Catalog (Catalog Manager) as shown in this article: Additionally, if you are interested in an alternative solution (support for exporting to PDF), look at these articles from the REST API team on the Report Services blog: Create PDF Output in Web Apps on RS Report Server Export/Print PDF reports to a.NET Webservice Create a REST API to export and print reports to PDF files Thank you for working on this feature request. This is very useful, and is something we want to add in a future version. Please also be sure to mark the feature request as "confirmed" to show we intend to support this in the future. Q: How to remove items from DOM (remove item with animation from page)? Lets say we have DOM with 100 items and we want to remove 6 items (for example by jquery). How to make such a thing with something like: item.remove(); So the item would fade in and out? I have no idea how to call fadeout() or fadein() methods in jQuery. I'm doing this by using background images as a method to remove items but it's not acceptable since we need animation. A: You can use css animation: `$('.red').hide() $('button').click(function() { $('.red').each(function() { var width = $(this).width(); $(this).css('margin-left', width - ($(this).width() / 2) + 'px'); }); $('.red').show() }) .red {`
